Come cheer on your local university women's soccer team while helping in the recovery of Matt Thomas!

On July 9th, 2009 Matt was paralyzed from the neck down in a mountain biking accident. Matt is a devoted member of our community participating for many years as an outdoor guide in support of youth groups and families. This is our opportunity to give back. See Matt's blog for details on his story of strength, courage, hope, and love...
